TURQUOISE

Turquoise is commonly known as the healing stone. Rather than your physical body, turquoise seeks to protect and nourish your mind. Depression, anxiety, and paranoia can be found nonexistent when wearing this stone.

*Open your mind with the
properties of moonstone.
It encourages serenity, stability, and
understanding.*

TIGER'S EYE

EMPATHY IS ONE OF THE MAIN ATTRIBUTES WITH TIGER'S EYE. TO UNDERSTAND yourself and those around you, this stone will make your perception clearer.

Owned and designed by Karen Wenzelmaier, our handcrafted silver gemstone jewelry line is unique, high quality and beautiful to make every woman who wears it feel special.

It is made with high quality materials and handcrafted, each and every piece of it. Turn each piece over and look at the handwork put into each item. We use a process called silver overlay. It is a copper base and then coated with a heavy layer of 925 sterling silver. We use natural gemstones whenever possible and quality created stones when necessary. Our jewelry looks high end, feels high end, wears high end. Only the price is the difference.
